CAREER OBJECTIVE

Final-year CSE student with a strong foundation in Python, SQL, and data visualization, seeking a Data Analyst internship to apply skills in data cleaning, exploratory analysis, and dashboard development to solve real business problems.

EDUCATION

Moodlakatte Institute of Technology, Kundapura

- CGPA: **8.2**

Excellent PU College, Sunnari, Kundapura — Pre-University Course (PUC)

- Percentage: **86%**

TECHNICAL SKILLS

Python, SQL, HTML, CSS, React, Power BI, Excel

PROJECTS

Customer Behavior Analysis — *Python, Pandas, SQL/MySQL, Power BI, DAX*

- Built an end-to-end analytics pipeline (data cleaning → EDA → SQL analysis → Power BI dashboard) on customer purchasing data.
- Analyzed demographics, spending patterns, and product preferences to identify high-value customer segments for targeted marketing.
- GitHub: github.com/shabari803/customer_behavior_analysis

Diwali Sales Analysis — *Python, Pandas, Matplotlib, Seaborn*

- Performed EDA on an 11,251-row retail dataset, cleaning raw data and analyzing trends by gender, age, state, marital status, and occupation.
- Identified that married women aged 26–35 in UP, Maharashtra, and Karnataka working in IT, Healthcare, and Aviation were the top-value customer segment for Food, Clothing, and Electronics.
- GitHub: github.com/shabari803/Python_Diwali_Sales_Analysis

AI Sentiment Analysis Tool — *Python, Streamlit, Multilingual Transformer Model*

- Built an AI-powered sentiment analysis web app using a multilingual Transformer model to classify text sentiment in real time.
- Designed an interactive Streamlit interface enabling users to input text and instantly view sentiment predictions and confidence scores.
- GitHub: github.com/shabari803/AI-Sentiment-Analysis-tool

Campus Placement Preparation Platform — *MERN Stack — React, Node.js, MongoDB*

- Developed a full-stack web platform to help students prepare for campus placements.

CERTIFICATIONS

- Data Analytics Essentials — Cisco Networking Academy
- SQL (Basic) Skill Certification — HackerRank
- The Basics of Google Cloud Compute Skill Badge — Google
- Getting Started with Artificial Intelligence — IBM
- CodeQuezt #33: Coding Challenge — Certificate of Participation, Naukri Campus

ACHIEVEMENTS

- Letter of Appreciation — The Concerned for Working Children
